Short Biography

Dr Kathleen Chang received her undergraduate training from Universiti Sains Malaysia (Kampus Kesihatan) and her Masters in Plastic & Reconstructive Surgery from Universiti Sains Malaysia (Kampus Kesihatan).

She is currently working in Hospital Melaka managing patients with clefts, skin cancers, burns and trauma requiring soft tissue reconstruction and coverage. She also performs arteriovenous fistulas for patients with end-stage kidney diseases. Her main interest is in craniofacial reconstruction such as cleft lip and palate repair, and body contouring procedures such as breast reduction, abdominoplasty and liposuction.
